ALU LINE PREMIUM

PREMIUM LINE

Distinguishing feature: refined details and the best quality materials used in manufacturing process

Premium Line is the line of products of the best quality. They were designed with particular attention to details using the best materials available on the market. The line consists of the innovative version of the mobile wall Alu Line Premium and Water Wall Premium made of aluminum and stainless steel.

Alu Line Premium is double sided mobile green wall

based

on Pixel Garden. The base of the product is hidden water

reservoir on wheels what makes it easy to move.

Another

advantage of products is the LED lightning installed along

the glass panel and the decorative lava stones or

snow-

-white Greek stones.

Premium Line was created for the most demanding customers. The products are available in several color variants.

WHO WE ARE?

WHO WE ARE?

Garden Spot is polish manufacturer of modular vertical gardens system Pixel Garden. We have been dynamically operating in the horticulture industry since 2008. We use our products in order to promote the idea of **GREEN WALLS**, which are more and more often used in both commercial and individual construction.

The products we offer used to build vertical gardens set

new

standards in space design and bring freshness, color and health to

the environment. Vertical gardens and interesting and unique way of growing plants in apartments, office spaces and public institutions.

Vertical gardens allow no only to increase the area of biological active surface without the need to find additional space, but also to bring nature closer and integrate it into an everyday room and to enjoy its presence.
